Introduction & Overview

The Butte County Association of Governments (BCAG) is formed by a Joint Powers Agreement (JPA) between the County of Butte and the incorporated cities of Chico, Gridley, Biggs, Oroville and the Town of Paradise. BCAG is the state designated Regional Transportation Planning Agency (RTPA) and the federally designated Metropolitan Planning Organization for Butte County.

In addition, BCAG's JPA gives responsibility to BCAG for the administration and operation of the region's consolidated public transit service. The BCAG Board of Directors is the policy making authority for transit decisions. The consolidation of the region's transit systems was the result of a multi-year planning effort by the cities, town, county and BCAG staff. Butte Regional Transit or *B-Line* provides fixed route and paratransit services to the cities, town and the county. B-Line service began in July 2005.

The BCAG Board of Directors is responsible for all policy decisions under the authority of BCAG, as the Policy Board for Butte Regional Transit. Transit policy decisions require a super majority vote of the Board, seven (7) of the ten (10) Board members. The Policy Board reviews and makes decisions based upon the recommendations presented by the Transit Administrative Oversight Committee and BCAG staff.

Purpose of Annual Transit Service Plan and Budget

BCAG is required to annually prepare a transit service plan and budget for Butte Regional Transit as per the JPA. The purpose of this Plan and Budget is to describe the transit services to be provided for the upcoming 2021/22 Fiscal Year. In addition, operating and capital expenses are identified with available funding sources. The transit service plan and budget also describe the committees involved and established to provide valuable input and oversight on transit related matters.

Transit Administrative Oversight Committee

The Transit Administrative Oversight Committee was established as a result of the transit consolidation. This committee includes administrative and other staff representatives from the county, cities, town and BCAG. This Committee meets as necessary to review and provide guidance concerning the B-Line transit service. The Committee also provides recommendations to the BCAG Board of Directors on the Annual Transit Service Plan and Budget and other transit issues that may arise during the year that are not included in the Plan. All transit policy issues, transit service and operating matters are reviewed with this Committee prior to a recommendation being made to the BCAG Board of Directors.

Social Services Transportation Advisory Council

The BCAG Social Services Transportation Advisory Council (SSTAC) was established under the requirements of the Transportation Development Act (TDA) with representatives established by statute. The SSTAC serves as an advisory committee to BCAG staff and the Policy Board on all transit issues. In particular, the SSTAC meets on an as needed basis during the year to provide input during the Unmet Transit Needs process.

Highlights and Accomplishments for 2020/21

Fiscal Year 2020/21 was an eventful year for Butte Regional Transit. The Coronavirus (COVID-19) posed challenges for the system with declined ridership and fares. BCAG was successful in securing operating and capital funds through the Coronavirus Aid, Relief, and Economic Security Act (CARES). Following are some of the accomplishments for the year:

- Placed order for five (5) new Ford E-450 Paratransit buses to be received in early FY 2021/22 through the FTA 5310 Program.
- Awarded FTA 5307, 5311, and 5311(f) CARES funds for operating and capital expenses in response to COVID-19 shortfalls. The capital portion was used to replace six fixed route diesel buses that had exceeded their useful life.
- Awarded FY 2019/20 FTA 5307 operating, capital, and planning grant to cover the operating and capital expenditures for B-Line. The planning portion is being utilized for the B-Line Routing Optimization Study to meet the current and future needs of B-Line riders.
- Awarded FY 2019/20 5311 operating grant and FY 2020/21 5311(f) operating grant to cover the rural operating expenditures for the Route 20 service between Oroville and Chico.
- Received \$1.7 million in FY 2020 FTA 5339 Bus and Bus Facilities funds to purchase two zero-emission battery electric buses, charging equipment, and facility upgrades.
- Coordinated with Caltrans to identify need for FTA 5310 Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA) funds.
- Awarded FY 2019/20 Low Carbon Transit Operations Program (LCTOP) grant for one zero emission electric bus, charging infrastructure, and underground upgrades. Submitted the FY 2020/21 LCTOP application for continued electric bus and charging equipment funding.
- Implemented the B-Line Mobile Ticketing Application through Token Transit for riders to purchase and store tickets on smartphone devices.
- Received Caltrans Strategic Partnership Transit Grant Program funds and executed agreement with a consultant team to complete the Chico to Sacramento Inter-City Transit Strategic Plan. The Plan will evaluate the feasibility of providing a commuter service between Chico and Sacramento.
- Applied to Caltrans Strategic Partnership Transit Grant Program to study the feasibility of extending passenger rail from Natomas to Butte County.
- Completed the Post Camp Fire Regional Population & Transportation Study, which included data collection, updated model files for the 2024 RTP/SCS Update, extensive public outreach, and the 2021 Transit & Non-Motorized Plan Update.
- Executed agreement to design and construct underground infrastructure to accommodate zero-emission buses and charging infrastructure.
- Entered into an agreement with the Center for Transportation and the Environment (CTE) to prepare the Zero Emissions Vehicle Rollout, Implementation and Operations Plan.
- Provided continued delivery of revised service and routing to accommodate displaced residents of the communities of Pulga, Concow, Paradise, Magalia and Butte Creek Canyon following the Camp Fire of November 2018.
- Completed the installation of wireless services and additional cameras for the Chico and Oroville Transit Centers to better provide passenger service and security.

- Continued responding to COVID-19 Pandemic with revised routing and scheduling to better service the public.
- Coordinating and partnering with Butte OEM and CalOES on the Butte County Emergency Plan and required updates.
- Group member of the Butte County Emergency Logistics Team.

Goals for 2021/22

- Complete underground infrastructure upgrades to support the introduction of zero-emission vehicles and charging equipment.

- Continue the partnership with Local and Regional Law Enforcement with Homeland Security Threat Training (if requested).
- Continue to partner with Butte OEM and CalOES on Butte County Emergency Action Plan.
- Continue to partner with the Butte County Emergency Logistics Team.
- Continue to conduct workshops with local Non-Profit & Social Service Agencies and Local Small Businesses.

- Change and implement policy changes for the B-Line service and to continue to evaluate current policies and needs of local and regional B-Line customers.
- Continue to evaluate future funding needs for bus replacement and present a plan to the TAOC and BCAG Board of Directors.
- Continue researching and applying for grants to assist with operations and capital costs.
- Expand the previously installed solar infrastructure to accommodate electric vehicle charging.

- Implement the Public Transportation Agency Safety Plan certified in July 2020 as required by FTA.

Fixed Assets

EQUIPMENT- FIXED ROUTE

The useful life of a large transit bus is 12 years or 500,000 miles. Since the consolidation of the B-Line in 2005, Congestion Mitigation and Air Quality (CMAQ) and other funding sources have been utilized for the purchase of fixed route buses, to minimize the contribution of Local Transportation Funds (LTF). In recent years CMAQ funds have gone to projects for the Cities, Town and County while LTF has been apportioned and reserved for bus purchases. In March 2020, federal funding was made available under the CARES Act for COVID-19 pandemic management in public transit. B-Line received funding to purchase six fixed route buses due in the first quarter of FY 20/21. BCAG continues to work with the Transportation Administrative Oversight Committee (TAOC) to evaluate funding needs for future replacement of B-Line buses.

During the 2021/22 fiscal year, planning will focus on the transition of the Butte Regional Transit's fleet to a zero-emission electric fleet. As part of the initiative through the State of California, Transit Agencies are to begin implementing the Innovative Clean Transit (ICT) Regulations for Zero Emission Buses. BCAG will continue to seek funding through California Air Resources Board (CARB) grant funding, Zero-Emission Vouchers, FTA and Caltrans grant funding programs to assist in the purchase of zero-emission transit buses, including acquisition, construction, and leasing of required supporting facilities/infrastructure. ICT proposed rule concept states that by January 1, 2023 50% of bus purchases by Transit agencies with 30 or more buses are to be Zero-Emission Buses (ZEBs) and by January 1, 2026, 75% of bus purchases to be Zero-Emission Buses (ZEBs) for all transit agencies and by January 1, 2029, *all* bus purchases would need to be Zero-Emission Buses (ZEBs). BCAG has received federal and state funds to purchase up to three ZEBs, charging equipment, and underground upgrades.

EQUIPMENT- PARATRANSIT

The useful life of a medium paratransit bus is 7 years or 150,000 miles. Paratransit buses have historically been purchased using the FTA 5310 Traditional program, and funding under this program appears to be sufficient for the time being. B-Line expects to receive five paratransit vans in early FY 2021/22 through the FTA 5310 Program.

SHELTERS

The 2021/22 budget will continue to benefit from the current contract with Stott Outdoor Advertising. Since the introduction of this agreement, Stott has installed more than 60 new and converted 26 bus stop shelters (which include trash and recycling receptacles) countywide, as well as updating and maintaining current assets. The agreement with STOTT Outdoor Advertising expired July 31, 2019 and is in the first of two (2) five-year extensions that were exercised (through July 31, 2029).

FY 2021/22 Proposed B-Line Budget

The total funding requirements for transit operations is \$10,830,927. The 2021/22 budget is \$323,903 higher than prior year in total dollars, an increase of 3.1%. The following items are significant changes in the 2021/22 budget from the prior year:

Cost Increases:

- Transdev services contract includes a maximum obligation of \$7,762,812 for the year, an increase of 4.3%. The rate associated with these costs for this budget is \$79.38, based on 97,793 budgeted service hours. Purchased Transportation cost reflects the Transdev operations service.
- Fleet insurance rates have increased.
- Software licenses and maintenance reflect rate increases.
- Utility costs included in Facility Operations are increasing, mainly due to PGE rate at facility.

Cost Decreases:

- Fuel cost is reduced to include annual CNG credits.

Funding:

Funding for the transit service is provided from three major categories: passenger fares, Federal Transit Administration (FTA) and other state grants, and California Transportation Development Act (TDA) funds.

Passenger fares, which normally must meet the TDA required farebox ratio of 10 to 20%, are not expected to meet the requirements for the 2020/21 fiscal year due to reductions in ridership from the pandemic. Caltrans has suggested that TDA requirements will be waived during periods effected by the pandemic. Additionally, the FTA may be distributing federal relief funding to cover the cost of lost fares and reduced TDA, which is derived from sales and fuel taxes. Passenger revenue in the final budget covers 7.8% of overall costs, a loss of nearly 25% from the prior year.

Annual FTA operating grants are awarded to transit recipients during the operating year, thus budgeted federal funding is based on prior year amounts adjusted for any known changes. In the final budget no additional relief funds are identified but will be utilized as they become approved. Federal/Other funding covers 31.7% of the proposed budget, nearly a 50% increase over prior year funding.

TDA funding makes up the remaining 60.6% of transit funding. TDA funds include State Transit Assistance (STA) funding and Local Transportation Funding (LTF), which comes from state tax on fuel and a ¼ cent of state sales tax revenue, respectively.

In fiscal year 2021/22 B-Line will continue to claim TDA funds directly as an operator, which was a procedure that was initiated in fiscal year 2019/20, as approved by the TAOC committee.

The following table outlines the proposed 2021/22 B-Line budget in relation to the previous two years information.
