EXECUTIVE SUMMARY

This Annual Service Plan and Budget describes the transit services to be provided by Butte Regional Transit (B-Line) in FY 2026/27 and identifies the operating and capital resources required to deliver those services. It summarizes prior-year accomplishments, outlines FY 2026/27 goals and planned service delivery (fixed route, paratransit, microtransit and inter-regional service), documents fixed assets used to provide services, and presents the FY 2026/27 operating and capital budgets including primary funding sources.

For ease of reference, the document is organized from program background and governance, to performance and goals, followed by the FY 2026/27 service plan, asset overview, and then the financial plan (operating and capital). Readers seeking B-Line service details should begin with the “FY 2026/27 Service Plan” section on page 5; and those reviewing financial information should begin with the “FY 2026/27 Budget” and “Capital Budget” sections beginning on pages 15 and 16, respectively.

INTRODUCTION/AGENCY & PROGRAM OVERVIEW

The Butte County Association of Governments (BCAG) was formed through a Joint Powers Agreement (JPA) between the County of Butte and the incorporated cities of Chico, Gridley, Biggs, Oroville, and the Town of Paradise. BCAG is the state-designated Regional Transportation Planning Agency (RTPA) and the federally designated Metropolitan Planning Organization (MPO) for Butte County.

BCAG’s JPA also authorizes the agency to administer and operate the region’s consolidated public transit service, Butte Regional Transit, known as B-Line. The BCAG Board of Directors is the policy-making authority for transit decisions. B-Line was created through the consolidation of the region’s separate transit systems following a multi-year planning effort by the cities, the town, the county, and BCAG staff. Services offered by B-Line for FY 2026/27 are:

- Fixed Route Service (includes microtransit)
- ADA Paratransit and Dial A Ride service (includes inter-city service)
- Inter-regional service (Chico to Sacramento)

PURPOSE & PLANNING/GOVERNANCE

Purpose of Annual Service Plan and Budget:

BCAG is required to annually prepare a transit service plan and budget for B-Line as per the JPA. The purpose of this document is to describe the transit services to be provided for the upcoming FY 2026/27 and define the expenses and revenue sources affiliated with operating and capital expenses as well as describe new/emerging and or revised services under consideration. The Service Plan and Budget also describe the committees established to provide valuable input and oversight to help direct and resolve all public transit related matters.

Transit Administrative Oversight Committee:

The Transit Administrative Oversight Committee (TAOC) was established as part of the transit consolidation process. TAOC includes administrative and staff representatives from the county, the cities, the town, and BCAG, and it generally meets once each March to review B-Line services and provide guidance and recommendations. The committee reviews transit policy, service, and operations matters

before staff makes recommendations to the Board. Recommendations from staff are forwarded to the Board as part of developing the and final Service Plan and Budget.

Social Services Transportation Advisory Council:

The BCAG Social Services Transportation Advisory Council (SSTAC) was established under the requirements of the Transportation Development Act (TDA) with representatives established by statute. The SSTAC serves as an advisory committee to staff and the Board on all transit issues. In particular, the SSTAC meets on an as needed basis during the year and provides input during the Unmet Transit Needs (UTN) process.

Governance:

Annually, in March or April, the Board considers recommendations from the TAOC, SSTAC, and staff in considering the upcoming Service Plan and Budget. Transit policy actions require a supermajority vote of seven (7) of the ten (10) board members.

PRIOR YEAR PERFORMANCE: FY 2025/26 HIGHLIGHTS AND ACCOMPLISHMENTS

BCAG was successful in securing operating, planning, and capital funds through various federal and state programs. B-Line continues to recover from COVID-19 impacts on ridership and supply chain delays. The following are some of the accomplishments for the year.

Funding:

- Awarded FY 2024/25 Federal Transit Administration (FTA) 5307 funds for operating assistance.
- Awarded FTA 5311, FTA 5311(f), and Low Carbon Transit Operations Program (LCTOP) grants for operating assistance.
- Awarded and received approximately \$17 million in SB-125 funds affiliated with the Transit Intercity Rail and Capital Program (TIRCP) and Zero Emissions Transit Capital Program (ZETCP).
- Awarded FY 2025/26 State of Good Repair funds for bus shelter and stop rehabilitation. BCAG is working with its contractor to improve shelters and pole stops throughout the county in a multi-phased approach.
- Awarded FTA 5339(a) funds to purchase Automatic Passenger Counters and bus-related equipment.

Planning:

- Completed the “B-Line Marketing Plan” in November of 2025 defining several strategies to support the general plan purpose of “Building a Better B-Line.”
- Expansion of a comprehensive analysis B-Line Routing to improve efficiency and ridership in Chico and Oroville.
- Engaged in various outreach events to promote B-Line services, such as the Chico Thursday Night Market, the Salmon Festival, African American Family & Cultural Center events, Dia De Los Muertos celebration, pop-ups at Chico State, and outreach to social service agencies.
- Coordinated and partnered with Butte OEM and CalOES on the Butte County Emergency Plan and required updates.
- Group member of the Butte County Emergency Logistics Team.

- Completed the Unmet Transit Needs Assessment for FY 2026/27.
- Development of Chico to Sacramento Express Service.

Projects:

- Deployment of five (5) GILLIG battery electric buses (BEBs) to fixed route service in October 2025.
- Energizing of electric charging infrastructure for BEBs in August of 2025.
- Developed specifications/plans for on-site hydrogen fueling station at the Butte Regional Operations Center.
- Completed underground upgrades to support deployment of zero-emission technology.
- Took delivery of fourteen (14) vans of various sizes to supplement current Dial-A-Ride, microtransit, and inter-city service.
- Deployment of upgraded dispatch and scheduling software.
- Development and deployment of microtransit and inter-city paratransit.
- Implementation of new mobile ticketing validators and smartcard technology.

FY 2026/27 GOALS AND KEY INITIATIVES

- Implement and deliver service to microtransit zones, routing changes, and marketing efforts to improve efficiency and increase ridership.
- Upgrade shelters and bus stops as needed.
- Continued assessment of infrastructure and power supply upgrades to support expansion of zero-emission vehicles and charging equipment.
- Continued partnership with local and regional law enforcement with Homeland Security Threat Training (as requested).
- Continue to partner with Butte OEM and CalOES on Butte County Emergency Action Plan.
- Continue to partner with the Butte County Emergency Logistics Team.
- Implement policy changes for the B-Line service and continue to evaluate current policies and needs of local and regional B-Line customers.
- Continue researching and applying for grants to assist with operations and capital costs.
- Update the Agency Safety Plan, as required by the Public Transit Agency Safety Plan regulation, and the Transit Asset Management Plan at required intervals.
- Continue deployment of B-Line marketing plan and rebrand systemwide.
- Continue updating transit management technologies to improve operations.
- Take delivery of 6 (six) 32-foot diesel cutaways and deploy inter-regional service from Chico to Sacramento.
- Take delivery of two (2) 35-foot battery electric buses for fixed route service.
- Order up to five (5) 35-foot diesel buses for fixed route service.
- Continued presence at community events to engage with the public about processes, regulations, and changes to B-Line services.

B. Microtransit - Town of Paradise

Beginning in the fourth quarter of FY 2025/26, B-Line launched a microtransit pilot in the Town of Paradise to restore on-demand connections for areas that lost fixed-route access after the 2018 Camp Fire and to link riders to fixed-route service along Skyway and Clark Road (including Paradise Pines and Magalia). The program is expected to expand in FY 2026/27 to include areas of Chico and Oroville as identified in the JWA study. Microtransit is supported using the same scheduling and dispatch technology as paratransit (Novus and Rides on Demand) to provide shared-ride, curb-to-curb trips within a rider's zone or to a transit hub for fixed-route connections. Riders must register in the app and request trips from within a service zone. Microtransit will operate Monday through Friday, 5:50 a.m.–10:00 p.m.

C. Days/Hours/Fleet Requirements

The following table summarizes the services that will be provided on B-Line and shows the days and hours of operation of all fixed route services. The table also shows how many buses are required for each route (fleet requirement) and peak-hour headways.

D. Paratransit

B-Line Paratransit provides complementary Paratransit service in accordance with the Americans with Disabilities Act. B-Line Paratransit also offers Dial-a-Ride service for seniors and persons with disabilities. To be eligible for the service, riders must be 70 years of age or older or have an impairment that prevents use of the fixed route system. *Note: BRT is contemplating the lowering of the age limit from 70 – 65 years of age having an appreciable effect on the number of service hours required to deliver the service.*

The service area of B-Line Paratransit includes the Chico Urban Area, the entire Town of Paradise and portions of Paradise Pines, Wilderness Way off of Pentz Road, and the greater Oroville area, including the City of Oroville and portions of unincorporated Butte County in the ADA Zones. The Dial-A-Ride intercity zone incorporates the existing ADA service zones defined by B-Line and a new zone that incorporates the Biggs-Gridley defined area. This intercity service consists of one daily round trip connecting ADA core zones to support non-emergency medical appointments. Service will be available to the general public on a space-available basis. Routes will connect Paradise and Magalia with Chico and Oroville, as well as Biggs and Gridley with Oroville.

Services on B-Line Paratransit are operated during the same time as the fixed route services. Services are operated during the following hours:

- Monday through Friday: 5:50 AM to 10:00 PM
- Saturday: 7:00 AM to 10:00 PM
- Sunday: 7:50 AM to 6:00 PM

The estimated Annual Vehicle Service Hours (VSH) for Paratransit in **2026/27 is 30,000**. The complete B-Line Paratransit Policies and Procedures are posted on the B-Line website at www.blinetransit.com.

E. Non-Operating Legal Holidays

B-Line services are closed and do not operate on the following six legal holidays:

1. New Year's Day
2. Memorial Day
3. Independence Day
4. Labor Day
5. Thanksgiving Day
6. Christmas Day

F. Summary of Service Hours All Routes

The combined service hours for all fixed route and paratransit services are 95,000. B-Line staff will be working with our contracted service provider define service hours as may be affected through external changes occurring after July 1, 2026 and associated contract costs which may also be affected.

TRANSIT ASSETS AND FACILITIES

B-Line operates its services with several types of vehicles. The vehicles utilized in each service are described as follows.

Fixed Route:

As of May 2026, fixed route services are being delivered with thirty-five (35) vehicles as follows:

- Seventeen (17) 40-foot diesel coaches (Gillig)
- Seven (7) 35-foot diesel coaches (Gillig)
- Six (6) 32-foot diesel cutaway buses (Freightliner)
- Five (5) 35-foot battery electric coaches (Gillig)

Microtransit:

As of May 2026, microtransit services are being delivered with five (5) vehicles as follows:

- Five (5) 22-foot 350-EL "Class V" vans (Ford)

Paratransit:

As of May 2026, paratransit service (including expanded inter-city) is being delivered with twenty-nine (29) vehicles as follows:

- Twenty four (24) 25-foot Ford E-450 “Class B” vans (Ford)
- Five (5) 22-foot 350-EL “Class V” vans (Ford)

Fixed Route Stop Shelters:

As of March 2026, of the approximately 623 identified stop locations systemwide, there are approximately 155 shelters. These shelters consist of 9 and 12 foot shelters. Of the 155 shelters, there are approximately 95 advertisement shelters. Staff will continue to identify appropriate shelters and bus stops for replacement and rehabilitation.

A. Future Planning and Development of Butte Regional Transit**Chico and Oroville Fixed Route Revisions:**

As the owner and operator of B-Line, BCAG continuously evaluates how well the system matches current travel patterns and community needs. Although the network has remained largely consistent since the 2005 countywide consolidation, major disruptions over the past two decades—including wildfires (most notably the 2018 Camp Fire), the Oroville Dam spillway emergency, and the COVID-19 pandemic—have shifted where people live, work, and access services, changing ridership and service expectations and requiring B-Line to adapt service types, routes, schedules, and supporting policies. To guide that adaptation, BCAG/B-Line initiated a comprehensive fixed-route study in Chico and Oroville with Jarrett Walker + Associates (JWA) beginning in January 2026. The study includes a hands-on, workshop-based effort that brought together transit staff and operators, riders, community stakeholders, the broader public, and local elected officials (through the BCAG Board) to set priorities and evaluate network redesign options. Public outreach included surveys that informed recommendations, and after implementation B-Line will continue monitoring performance and refining the system as conditions evolve while leveraging existing grants and pursuing new federal and state funding to support operations and capital needs—including conventional and zero-emission vehicles and the facilities and infrastructure required to maintain and fuel/charge them.

Inter-regional Service (Chico to Sacramento):

As of March 2026, six (6) 36-foot E-FRT Freightliner/Glaval diesel cutaways were put on order for the Chico to Sacramento service expected to begin early 2027.

FY 2026/27 FINANCIAL PLAN

Operating Budget:

The total funding requirements for transit operations is \$14,630,043. The FY 2026/27 budget is \$1,166,628 higher than the prior year budget, an increase of 8.7%. The following items are notable changes in the FY 2026/27 budget:

Cost Increases:

- Increase of \$821,763 or 8.7% in *Purchased Transportation* per Transdev contracted rate increase and additional service extension.
- Increase of \$38,606 or 11.7% in *Software Maintenance* to account for increasing license fees and transition to newer software that supports improvements to paratransit and introduction of micro transit service.
- Increase of \$165,000 or 30.8% in Support Services to include IT Manager position.

Cost Decreases:

- Decrease of \$5,094 in *Ops Facility Maintenance* due to contract negotiations.

Funding:

Funding for the transit service is provided from three major categories:

- Federal Transit Administration (FTA)
- State Transportation Development Act (TDA)
- Passenger fares.

The *Operating Revenues (fares)* show a 1.4% increase in overall fares compared to the previous year's budget. Better estimates may be obtained once actual fare collection data on the new services are collected.

Federal/Other funding shows a decrease of 7% over the prior year. FTA 5307, FTA 5311 and 5311(f) annual apportionments support the operations of transit. This is the first year without Covid funding being used. As total federal funds are reduced, TDA needed for transit will be increased.

Additional sources of funding include:

- State of Good Repair (SGR-state) is used largely for B-Line facility equipment and systems repairs/upgrades/replacements and shelter stop improvements.
- Low Carbon Transit Operations Program (LCTOP-state) may be utilized for microtransit operations and marketing, and designated free fare days throughout the year at times specific to highlight all B-Line services, or ones that coincide with specific transit friendly marketing campaigns.
- Advertising (local) on select stop shelters and fixed route buses and supports shelter stop improvements.

TDA support shows an increase of 25% compared to the prior year's budget. Any excess TDA funding over actual operating cost is carried into the following fiscal year. The TDA funds from 2025/26 carried to 2026/27 are estimated to be \$400,000. The carryover amount reduces the TDA that is requested for apportionment.

B. Capital Budget:

Five (5) battery electric buses (BEBs) were delivered in April of 2025 and went into service in October of 2025. Electric charging equipment was energized in August of 2025 and has been in use since October to charge the BEBs. Ten (10) smaller vans for paratransit and microtransit service were delivered in late 2025 and went into to service in May of 2026. Four (4) paratransit buses procured from the FTA 5310 program and were put into service during the fiscal year. Six (6) thirty-six (36) foot cutaways were put on order in March of 2026 in preparation for the Chico to Sacramento service expected to begin early 2027. Four (4) to five (5) fixed route diesel coaches are expected to be placed on order during the 3rd quarter of FY 25/26 for delivery in FY 26/27. Additional equipment purchases expected for the year include cash fareboxes and automatic passenger counting equipment. Grant funding is expected to be available for these purchases but may also require utilizing capital reserves. Bus shelter improvements continue and have State of Good Repair funding set aside for this purpose. The rebranding of the transit system will roll out as necessary, and as financially viable.

The following table outlines the FY 2026/27 B-Line Budget in relation to the previous two years' information.
